Cervical intra-epithelial neoplasia, detection of glandular differentiation and early invasion in reported cases using immunological and histological techniques, 75(*abs*)
Chronic granulomatous disease, role of phagocytic NADPH oxidase, 149(A)
Chylomicron metabolism, oral fat load test, 74(*abs*)
Codium fragile ssp. *tomentosoides*, lectin from conjugated to colloidal gold, new histochemical reagent, 225(SC)
Colloidal gold, lectin from *Codium fragile* ssp. *tomentosoides* conjugated to, new histochemical reagent, 225(SC)
Colour amplified PCR detection system of heat-stable toxin coding gene (ST-gene) in enterotoxigenic *Esch. coli*, 317(SC)
Computer program review, Dewhurst D, Overfield J, Davies D. *Blood coagulation*, 1994, 172
Connective tissue fibre production in keratoconus, 14(OA)
Correction, 332
Cryovials, use for storage and repeated recovery of *Neisseria gonorrhoeae*, 19(OA)
Cyclospora, autofluorescence, 76(L), 231(L)
Cystic fibrosis, neonatal screening within a geographically dispersed population, 228(*abs*)
Cytokeratin markers, for rapid techniques for basal cell carcinoma, to assist treatment by micrographic (Mohs') surgery, 184(OA)
Cytokines, immunoregulatory roles of TGF-beta, 142(A)

Death by poisoning, investigation, 310(BU)
Diet, assessment of food intakes, and measurement 58(A)
Disinfection, formaldehyde, in laboratories, limitations and hazards, 195(A), 332 (correction)
DNA damage and repair, bleomycin-induced, in wild-type and thymidine kinase-deficient Friend mouse erythroleukaemia cells, 257(OA)
Drug sensitivity in acute myeloid leukaemia, P-glycoprotein expression compared with, 188(OA)

Economics, laboratory: 70 years ago, 141
Enterotoxigenic *Esch. coli*, detection of heat-stable toxin coding gene (ST-gene) by colour amplified PCR, 317(SC)
Eosinophil counts, automated, erroneous, in HIV-infected individuals, 165(SC), 325(L)
Epstein–Barr virus, infrequent association in gastric carcinoma, and characterisation of gene expression, 308(BU)
Escherichia coli, biotyping in microwell plates, 173(OA)

Familial cancer, and genetics, 215(BU)
Familial multiple endocrine neoplasia and medullary thyroid carcinoma, 309(BU)
Fat load test, oral, of chylomicron metabolism, 74(*abs*)
Filtered plasma as potential cause of clinical misdiagnosis, inappropriate testing in haematology laboratory, 243(OA)
Folate requirements for health in different population groups, 110(RA)
Food intakes, assessment, are we measuring what people eat? 58(A)
Formaldehyde disinfection in laboratories, limitations and hazards, 195(A), 332 (correction)

Gastric cancer, peptic ulcers, and *H. pylori*, 271(A)
Gastric carcinoma, infrequent association of Epstein–Barr virus, and characterisation of gene expression, 308(BU)
Gastric lymphoma, primary, histopathology, 291(A)
Gel technology for automated blood grouping, 266(OA)
Genetics and familial cancer, 215(BU)
Gentamicin, serum levels, Syva Solaris and Syva QST analysers compared, 102(OA)
Glandular differentiation and early invasion, detection in reported cases of cervical intra-epithelial neoplasia using immunological and histological techniques, 75(*abs*)
Glasgow, gonococcal serovar patterns, 1990–1992, 87(OA)
Gonococcal serovar patterns, Glasgow, 1990–1992, 87(OA)
Granulomatous disease, chronic, role of phagocytic NADPH oxidase, 149(A)
Gynaecological tumours, quantitative estimation of morphological features using semi-automated image analysis and immunohistochemical staining, 229(*abs*)

Haematology laboratory, inappropriate testing, filtered plasma as potential cause of clinical misdiagnosis, 243(OA)
Hard tissues, picro-thionin (Schmorl) staining, 162(SC)
Helicobacter pylori
peptic ulcers and gastric cancer, 271(A)
physiology and biochemistry, 282(A)
Hepatitis Be antigen, spontaneous loss and development of anti-HBe during long-term follow-up of blood donors found to be HBsAg-positive, 106(OA)
High-performance liquid chromatography in determination of aflatoxins in groundnut meal, two methods compared for aflatoxin B_1, 312(SC)
HIV-infected individuals, erroneous automated eosinophil counts, 165(SC), 325(L)
Homosexually-acquired infection, gonococcal serovar patterns, Glasgow, 1990–1992, 87(OA)
Hookworm, life history: 69 years ago, 57
Hormone replacement therapy, oestradiol measurement in women on, validity of commercial test kits, 97(OA)

Human chorionic gonadotrophin, serum, uses and misuses, clinical audit, 26(OA)
Human papillomavirus infection, epidemiology, 309(BU)
Human tissue retrieval at post-mortem for musculoskeletal research, 22(SC)
5-Hydroxyindole acetic acid, urinary, liquid chromatographic technique, development and application, 74(*abs*)
5-Hydroxytryptamine, urinary, liquid chromatographic technique, development and application, 74(*abs*)

Immune function, age-related changes in haematologically normal individuals, 75(*abs*)
Immunocytochemistry in diagnosis of Kaposi's sarcoma and angiosarcoma, 35(RA)
Immunohistochemical staining and semi-automated image analysis in quantitative estimation of morphological features of gynaecological tumours, 229(*abs*)
Immunohistochemical techniques, effect of melanin bleaching, 22(OA), 325(L)
Intestinal microvillus disorders of infancy, 307(BU)
Ion-selective electrodes, BM/Hitachi 911, for sweat sodium and chloride analysis, 68(SC)

Kaposi's sarcoma, immunocytochemistry in diagnosis, 35(RA)
Keratoconus, connective tissue fibre production, 14(OA)

Laboratory chemical technique: 58 years ago, 156
Laboratory economics: 70 years ago, 141
Latex agglutination, ultrasound enhanced, for detection of bacterial antigens in urine, 178(OA)
Lectin from *Codium fragile* ssp. *tomentosoides* conjugated to colloidal gold, new histochemical reagent, 225(SC)
Lectins, cell-surface, expression on haemopoietic progenitor cells, 249(OA)
Leukaemia, acute myeloid, P-glycoprotein expression compared with drug sensitivity in fresh blast cells, 188(OA)
Light microscope, simple method for demonstration of bacterial capsules, 321(SC)
Lipofuscin, common pigment in an unusual site, 306(BU)
Liquid chromatographic technique for urinary 5-hydroxyindole acetic acid and 5-hydroxytryptamine, development and application, 74(*abs*)
Lymphoma, gastric, primary, histopathology, 291(A)

Mammary tumour cell lines, detection of reverse transcriptase in culture medium, techniques compared, 2(OA)
Medullary thyroid carcinoma and familial multiple endocrine neoplasia, 309(BU)
Melanin bleaching, effect on immunohistochemical techniques, 22(OA), 325(L)
Micrographic (Mohs') surgery, use of cytokeratin markers in basal cell carcinoma, 184(OA)
Microtitre plates for semi-automated protein assay, some practical considerations, 230(L)
Microtitre trays, culture of genital specimens for routine detection of *Trichomonas vaginalis*, 93(OA)
Microvillus disorders, intestinal, of infancy, 307(BU)
Microwell plates, biotyping of *Escherichia coli*, 173(OA)
Molecular biology of cancer, 214(BU)
Multiple endocrine neoplasia, familial, and medullary thyroid carcinoma, 309(BU)
Musculoskeletal research, human tissue retrieval at post-mortem, 22(SC)
Mycoplasma pneumoniae, direct sample PCR for detection, simple system for clinical application, 9(OA)

NADPH oxidase, phagocytic, role in chronic granulomatous disease, 149(A)
Needles, for blood-letting, storing and sterilizing: 71 years ago, 13
Neisseria gonorrhoeae
  gonococcal serovar patterns, Glasgow, 1990–1992, 87(OA)
  storage and repeated recovery using cryovials, 19(OA)

Oestradiol measurement in women on oral hormone replacement therapy, validity of commercial test kits, 97(OA)
Oncology, recent advances, 214(BU)

P-glycoprotein expression compared with *in vitro* drug sensitivity in fresh blast cells from acute myeloid leukaemia, 188(OA)
Pancreas, blood group T, Tn and sialosyl-Tn antigen expression, 308(BU)
PCR detection system, colour amplified, of heat-stable toxin coding gene (ST-gene) in enterotoxigenic *Esch. coli*, 317(SC)
Peptic ulcers and gastric cancer and *H. pylori*, 271(A)
Picro-thionin (Schmorl) staining of bone and other hard tissues, 162(SC)
Platelet count and platelet factor 3 (PF-3) availability in sickle cell disease, 323(SC)
Platelet factor 3 (PF-3) availability and platelet count in sickle cell disease, 323(SC)
Poisoned patient, role of the laboratory, 202(A)
Poisoning, death by, investigation, 310(BU)
Polish for benches and floors: 71 years ago, 109
Polymerase chain reaction, direct sample, for detection of *Mycoplasma pneumoniae*, simple system for clinical application, 9(OA)
Pre-cancer screening, 120(A)
Progenitor cells, haemopoietic, expression of cell-surface lectins, 249(OA)
Proliferating cells, immnohistochemical assessment, cell cycle, 217(BU)

Red cell antibodies, detection, current and future techniques, 297(A)
Respiratory tract, bacterial infections, pathogenesis, 157(A)
Reverse transcriptase, detection in culture medium for mammary tumour cell lines, techniques compared, 2(OA)

Schmorl's picro-thionin staining of bone and other hard tissues, 162(SC)
Screening, for cancer and pre-cancer, 120(A)
Semi-automated image analysis and immunohistochemical staining in quantitative estimation of morphological features of gynaecological tumours, 229(*abs*)
Semi-automated protein assay using microtitre plates, some practical considerations, 230(L)
Serum preparation and filtration: 60 years ago, 194
Sialosyl-Tn antigen expression in pancreas, 308(BU)
Sickle cell disease, platelet count and platelet factor 3 (PF-3) availability, 323(SC)
Squamous carcinoma of tongue cell line, establishment and characterization, and its clinical application, 228(*abs*)
Sweat sodium and chloride analysis using BM/Hitachi 911 ion-selective electrodes, 68(SC)
Syva Solaris and Syva QST analysers compared for serum gentamicin levels, 102(OA)

Temperatures and thermometers: 60 years ago, 96
Thermometers and temperatures: 60 years ago, 96
Thymidine kinase-deficient Friend mouse erythroleukaemia cells, bleomycin-induced DNA damage and repair, 257(OA)
Tongue cell line, squamous carcinoma, establishment and characterization, and its clinical application, 228(*abs*)
Toxicological investigations in poisoned patients, role of the laboratory, 202(A)
Transforming growth factor beta, immunoregulatory roles, 142(A)
Trichomonas vaginalis, routine detection in genital specimens using culture in microtitre trays, 93(OA)
Turbidimetric urine screening, 71(SC)

Ultrasound-enhanced latex agglutination for detection of bacterial antigens in urine, 178(OA)
Urinalysis, turbidimetric screening, 71(SC)

Viruses and cancer, 216(BU)
von Willebrand factor, function and measurement in the laboratory, 50(A)
